

Engineer 2 (E2 / Maintenance)

Job Title: Engineer 2 (E2/Maintenance)

Status: Full-Time

Department: Engineering

Division: Broadcast / Columbus, OH or remote

Purpose: The purpose of this position is to provide assistance to Engineer-in-Charge (EIC) with on-site client service and technical support. Maintain and operate technical equipment and support systems, while providing client service.

Position Responsibilities:

- Repair, calibrate, and test electronic equipment at the component level as delegated by the Engineering Manager. (Display/LED or Projectors/Screens).
- Perform preventative maintenance, troubleshooting, and engineering updates of mobile unit, fly packs and semi-permanent installs. Perform quality control checks on all systems.
- Provide technical assistance and leadership to EIC technicians.
- Document faults and problems with equipment and make proper orders so that repairs can be made. Follow through on repairs, inventory needs, and updates.
- Maintain a low turnaround on equipment repairs and a high degree of accuracy in testing, calibration and repairs.
- Contribute to the organization of the Field Shop and facilitate an efficient working environment for the Field Shop personnel.
- Other duties as assigned.

Qualifications:

- Demonstrate basic skills in television broadcasting, operational experience also necessary.
- Bachelor's Degree in engineering discipline or combination of academic and professional experience.
- Minimum of three years of experience providing technical services to the entertainment and broadcast industry.
- Demonstrated knowledge of broadcast technology, equipment, facilities, and production for major commercial and cable television networks.
- In depth technical knowledge of switches, routers, audio, visual, graphic and other systems used in studio television facilities.
- Must be able to interface and communicate well with both clients and staff to provide a high level of service and support.
- Willing and able to work required weekend shifts and after-hours coverage; schedule may vary and be based upon client needs.
- Must be willing and able to carry equipment from 60-100 pounds. (Should not attempt to carry anything over 60 pounds without assistance).
- Must be able to kneel, squat, lean and bend to safely and properly carry such items.
- Must be able to travel domestically and internationally up to 25% of the time.
- Must have a current passport.
- Must be able to interface and communicate well with both clients and staff to provide a high level of service and support.
